▶ Designing & Building Imaginative Gardens

Are you considering a complete rethink or have plans to change part of your garden? You can rely on us at Charles Hogarth Landscapes to make it happen the way you want - to design and build a garden to match your expectations and budget.

With over 20 years award winning expertise in designing and landscaping imaginative gardens in Hertfordshire and surrounding counties we can transform your garden, revitalise forgotten corners and introduce new features to suit your lifestyle and make the most of your outdoor space.

"natural planting with lots of flowers can take lots of planning but for this client it was well worth it"

"careful designing has allowed for lots of flowers in this smaller town garden"

There is always an opportunity to improve our outdoor space to meet changing needs and planning for that change really is a worthwhile investment.

In fact, a well-designed garden can add as much as 6% to the value of your home.

We specialise in designing and building natural water features and ponds, garden lighting schemes, creative terraces, arbours and pergolas. Each unique garden design is brought to life with effective planting schemes to create a beautiful and original garden you can relax in and enjoy.

An active member of the Association of Professional Landscapers, (a national body raising standards for garden landscaping), we provide a professional landscape design and construction service and take pride in building quality gardens that last. Why not get some inspiration from our award winning gardens and call us to discuss how your garden could be transformed into a very special place right on your doorstep.

*"blue sky,
clear lines,
beautiful climbers,
a simple and
attractive garden
evocative of
summer holidays ..."*
